

The 3DE Vision :

To systemically re-engineer high school education to expand economic opportunity for ALL students.

WHY?

Designed to solve for barriers to opportunity:

Addressing Universal Needs Across Education

- Bringing Relevance & application across education

Addressing Structural Inequities in Education

- Providing access to in-demand careers and building culture of inclusionary instruction & individual value.

HOW?

Competency-based Case Methodology

Students learn through real-world experiences to develop competencies for competitiveness, while increasing engagement, discovering individual value, and accelerating academic comprehension.

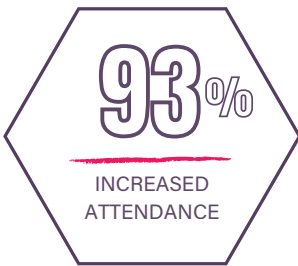

This fosters the behaviors, skills, and mindsets that drive student access and opportunity.

OUTCOMES

3DE Schools provide all students equitable access to high quality education through learning that meets the values of today's students and demands of the future economy. As a result, 3DE Schools are increasing:

- Engagement & Graduation Attainment
- Academic Comprehension & Proficiency
- Competitiveness & Opportunity

3DE SCHOOLS ARE THRIVING (23 SCHOOLS IN 4 STATES)

93% of 3DE schools had fewer cases of chronic absenteeism compared to peers.

89% of cohorts outperformed their peers on scoring at or above state levels of achievement in core academic subjects.

31% increase in graduation rate at 3DE schools since 2017

95% of principals believe 3DE is a more effective instructional model for students

INVESTMENT FOR SCHOOL TRANSFORMATION

3DE Schools has a zero-based budget launch, the model leverages existing infrastructure and the school district allocates resources that amount to 95% of the total cost (e.g. \$9,500/student). This leaves **5% incremental investment** from the private sector to cover the cost per student (e.g. \$450/student). This represents a **1:20 private-public ratio** that is driving school transformation and consistently positive student outcomes.
